BODY SLAMMING BODY SLAMMING was a team of expert bodybuilders and fitness models who became famous for their "battle of the bulges" competition. They are also known for their extreme and controversial lifestyle. The roster of the team includes: Dennis Roman Sylvio Walls Frankie France Frank Curry Al Ferrara Paul Casey Dale Patri Stacy McGinn Mark Ewbank David Kwan Bruce Seals Larry Zybas Bob McGrail Don Proctor Ben Procter John Robert Doherty John Cahill Bob Boffa Bobby Riggs Larry Scott Greg Mercer Eric Aronson Taffy Schiff Along with their famous wrestling tag team matches and tournament, they have also wrestled famous opponents such as Andre the Giant, Andre the Giant Jr., and Hulk Hogan, mainly in the United States. They were not a wrestling team, but they did come from the wrestling field. They also starred in various other extreme fitness/bodybuilding shows. Body slamming incidents Dennis Roman was featured in the Wrestling World video "Who's in the Family?" alongside Brother D and Gene Gable where D was being held up by another wrestler and one of them slaps him with an elbow drop, breaking his nose. Roman comes in and helps D and Gene T take the guy down. Roman and Brother D proceed to pummel the guy until he's finished. Al Ferrara was featured in a similar scene in the Wrestling World video "SmackDown" where one wrestler had a foot lock on a man and the other two wrestlers are stomping on his face. Ferrara helps free the man. Ferrara had an elbow drop on one of the wrestlers and the other wrestler got smashed in the head with a chair. Drawing in Multiple Layouts: In one of the latest enhancements to AutoCAD, you can add and edit the views for a drawing directly in the drawing area. New versions of AutoCAD, including AutoCAD 2023, will let you add multiple views to a drawing. There are two different ways to add views to a drawing: 1. From the Switch View command. To create a new view, right-click on a view and choose "Switch View." To move the view to a different location, hold down the Ctrl key while you click and drag a view to the new location. To close a view, right-click and choose "Switch View" again. 2. From the Properties Pane. You can create a new view from a drawing property (for example, in the drawing's Data or Drawings properties). To create a new view, right-click on a view and choose "Switch View."
