Hermetic Word Frequency Counter Advanced is a piece of software that allows you to count the words and phrases in one or multiple text files on your computer. A simple, straightforward interface The program comes with an easy-to-use interface that allows you to select the files you want to be scanned with only a few mouse clicks. You have the option to scan only files that match specific patterns, or to exclude specific words or phrases from the counting process. The tool automatically loads a list of common words to be overlooked, but you can also define your own. Easily analyze multiple files With this application, you can easily count words and phrases in multiple documents, without having to actually open each file separately in order to do that. You only need to choose the folder where your text files are located, and the application will scan all of them automatically. Furthermore, you can count the words in files that feature different extensions, including texts, Word documents, Web pages, etc. After analyzing your files, Hermetic Word Frequency Counter Advanced displays the results in a list that can be easily customized via a set of drop-down menus situated on the bottom-left corner of the main window. You can see words listed alphabetically or by frequency, but you can also set the app to display a list of files in which each word appears, or to show you Zipf data or word ranking (each item is ranked based on the number of occurrences). A powerful word and phrase counter The program allows you to set a variety of rules for the word counting process. You can set it to take into consideration numerals, underscores, slashes and other symbols, but you can choose to ignore words that have only one or two characters, or those which lack a letter. In conclusion, Hermetic Word Frequency Counter Advanced is a powerful tool for counting words and phrases in your text files, allowing you to discover items that repeat too often and to improve your writing skills. KEYMACRO is a small program to keep track of the repeated use of your most frequently used keyboard shortcuts. Quickly memorize the most useful shortcuts for easier typing KEYMACRO simplifies the repetitive process of memorizing keyboard shortcuts. As it is not necessary to memorize the specific commands, your memory can be focused on other things. Track the repetition of shortcuts in a simple list KEYMACRO displays all the shortcuts you are likely to use over and over again. The main window can be split into several panels for a clear and intuitive view of the list. To expand the number of shortcuts you are tracking, you can set a custom order for the list, using the menu in the bottom-left corner. The program also allows you to reset the list to its original position or to generate a list in which each row represents a single shortcut. To help you keep track of your shortcuts, the program automatically displays the amount of times you use each shortcut and creates a sortable table to help you organize your shortcuts. You can also edit the shortcuts as many times as you want, making KEYMACRO the ideal tool to support your muscle memory and increase your productivity. A useful tool for those who are on the go KEYMACRO can be set to launch automatically at a certain time or when you start Windows. It can also be easily detached, allowing you to continue working without interrupting your workflow. Furthermore, the application can also save your favorite shortcuts in a separate profile, helping you to create more shortcuts on the fly without having to copy them again. KEYMACRO is compatible with the following keyboard shortcuts: Del, F1, F11, PrintScreen, Pause, CapsLock, ScrollLock, Home, End, PageUp, PageDown, Insert, Delete, Up, Down, Left, Right, Home, End, PageUp, PageDown, Tab, PrintScreen, Pause, CapsLock, ScrollLock, Home, End, PageUp, PageDown, Insert, Delete, Up, Down, Left, Right, Home, End, PageUp, PageDown, Tab, PrintScreen, Pause, CapsLock, ScrollLock, Home, End, PageUp, PageDown, Insert, Delete, Up, Down, Left, Right, Home, End, PageUp, PageDown, Tab, PrintScreen, Pause, CapsLock, ScrollLock, Home, End, PageUp, PageDown, Insert, Delete, Up, Down, Left, Right 2edc1e01e8
